INSTRUCTORS

The best systems will fall short if not properly implemented. Norse instructors are selected to provide value-added performance to our students, as well as the agencies that they represent.

We insist upon personnel committed to the Norse mission and capable of delivering an unmatched level of training quality. Norse instructors undergo a rigorous and intensive development program in order to ensure that students complete our courses with the capacity to utilize the tactics, techniques, and procedures presented within the course.

Instructors are selected for their specific background, operational experience, and most importantly, their ability to teach.

Norse instructors are selected based on stringent criteria. Submitting an application is not a path to this, merely a part of the process.

In the past 6 years, we have trained:

3,247
officers in **closed**
course formats

5,728
officers in **open**
course formats

44
teams in recurring **long-term**
sustainment training programs

800
LEOs continue to **train daily**
through the Norse Training
Portal, an interactive, online
training resource designed as
an enhancement to ensure
proficiency and retention.

ACCREDITATION

Norse was the forerunner in establishing accreditation for tactical training to offer students continuing education. We are recognized and approved by multiple state-level government agencies and are motivated to establish accreditation in any state that our clients seek to train in.

8,600+

logged sustainment training hours since 2014

9,300+

Officers have participated in Norse Training

620

hours of new content uploaded to Portal since inception

65

courses accredited across 5 states

TRAINING SYSTEMS

Norse offers training programs for any experience level of officer.

Our training operations fall into four key categories:

Open Course:

Courses offered to any sworn officer, at Norse facilities, and remote courses around the country.

Closed Course:

Courses offered at the team or department level. Custom curriculums are available.

Sustainment:

Recurring training for teams on an annual basis to promote advanced techniques and progression.

Training Portal:

An interactive, online resource to enhance course results and progression for sustainment clients or students after completing courses. Our course curriculums cater to officers from new to experienced patrol officers, and special operations officers including narcotics, warrant service, and tactical response teams.

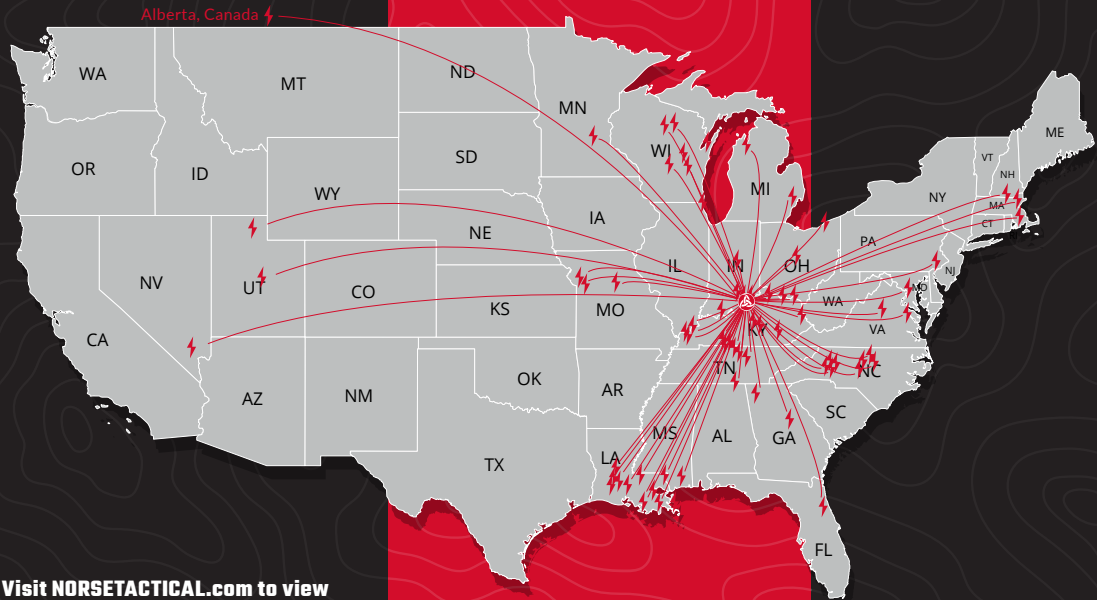

YOUR SITE OR OURS

Norse has provided training to law enforcement agencies across the country

Our instructors regularly travel to remote locations to conduct open and closed course formats.

Students travel from all over the country to attend courses at Norse's state of the art, purpose built facilities.

Military Special Operations, from multiple branches, combined with experienced Law Enforcement Officers develops a superior instructor cadre in the industry.

NORSE INNOVATION

**THE FINEST FOUNDATIONS REQUIRE
THE BEST TOOL TO BUILD IT.**

FACILITIES

Norse training facilities are purpose-built to create the most beneficial environment for training. Located in Southeast Indiana and Southern Louisiana, we offer training facilities, to include student lodging, offering unmatched capabilities for clients.

- 1,000+ unique layouts
- 13,000+ square feet of space
- 6 classrooms
- Breaching training facades
- Infinitely variable layout with lighted and low-light capabilities
- 4 – 25 M Live Fire Ranges – Rifle / Pistol
- Multi Purpose Range – 100 – 300 M
- Unknown Distance Range
- 600 / 900 M Stations
- 2500 SF Shoot House
- Updated classrooms

SEE MORE FACILITY PHOTOS AT NORSETACTICAL.COM

SHOOT HOUSE

Our state-of-the-art Shoot House is a non-live fire structure featuring a modular design. The structure can be changed to give a completely new layout in the same floor space that was just used in mere minutes. This and the features above make the Norse facility the premier law enforcement entry training facility in the Midwest.

FITNESS FACILITY

Norse offers top-of-the-line equipment in our fitness center. Students attending courses have access to this before and after training.

LODGING FACILITY

Norse offers a lodging facility at affordable rates for students and teams traveling to Norse facilities for training.

NORSE HIDDEN VALLEY

Norse is partnered with FOP Lodge 99 in New Albany, IN. Our common goal is to create the finest private Law Enforcement training facility in the Midwest.

Hidden Valley Range is available to any law enforcement agency that needs a quality training facility. The facility can accommodate day and night exercises in a restricted access location, just minutes from downtown New Albany.

- 4 – 25 M Live Fire Ranges – Rifle / Pistol
- Multi Purpose Range – 100 – 300 M
- Unknown Distance Range
 - ° 600 / 900 M Stations
- 2500 SF Shoot House

NORSE SUSTAINMENT

NORSE SUSTAINMENT IS AN ANNUAL TRAINING PROGRAM FOR TEAMS OR AGENCIES TO PROVIDE THEIR OFFICERS WITH A TOOL FOR RETENTION AND DEVELOPMENT.

THIS TACTICAL TRAINING PROGRAM IS ANOTHER INNOVATIVE SYSTEM CREATED AND IMPLEMENTED EXCLUSIVELY BY NORSE.

Norse's national presence has allowed the organization to build its training programs specifically to fit their departmental/agency needs.

Each of our programs are built on principles which provide officers the opportunity to process information without compromising tactical advantage.

Norse's ability to standardize their principle based system for special operations and patrol has been the biggest paradigm shift in Law Enforcement training culture throughout the country.

Our constant analysis of current trends in law enforcement, coupled with expansive information sharing has also allowed our clients to expand their knowledge base on the applicability of the Norse System to their specific area of operation.

Norse course curriculums fall into two primary categories: Patrol Operations Division and Special Operations Division. We also offer a stand alone Specialized Courses series for those looking for a singular focused training regime. The same methods are taught in all divisions, producing standardization and acceleration of training for officers moving from Patrol into Narcotics, Warrant Service Teams, or SWAT. Course formats are tailored to operations within each division.

TACTICAL FIREARMS COURSES

LVL 1 - This 1-Day Course teaches the fundamentals for safe weapons manipulation, accurate target engagement, malfunction mitigation, and weapon transitions and techniques for effective weapon employment in restrictive environments, utilizing the Pistol and Patrol Rifle systems.

LVL 2 - This 1-Day Course will challenge students' proficiency with Pistol and Rifle systems, demanding increased levels of accuracy during complex exercises. Dynamic exercises will require students to move to and from cover and engage targets while maintaining a high degree of safety, accuracy, and situational awareness.

TACTICAL PATROL OFFICER COURSES

LVL 1 - This 3-Day Course will instruct students on the fundamentals of accurate target engagement with a pistol and skills critical for safe, effective weapons techniques within close quarters environments. Students will learn effective technique to enter and clear a structure as a 2-officer element in a controlled and effective manner.

LVL 2 - This 3-Day Course will build upon the level I course, implementing the Patrol Rifle. Students will learn to utilize pistol and rifle platforms in Close Quarters environments and the fundamentals for accurate and safe engagement principles for both systems.

LVL 3 - This 3-Day Course will build upon the fundamentals of firearms with the Pistol and Patrol Rifle platforms. Entry and Clearance fundamentals and techniques, utilizing both weapon systems, as part of a 2-4 officer element will produce a student with an enhanced capacity to respond to increased threat situations.

SWAT COURSES

LVL 1 - This 5-Day Course will provide a SWAT, or equivalent officer, with the fundamental critical skills necessary for tactical operations. One day of Pistol / Rifle Training, one day of Mechanical Breaching, and three days of Close Quarters Entry techniques will enhance the skills of experienced officers and prepare new officers for real-world operations.

LVL 2 - This 5-Day Course will enhance the officer's skills to prepare for increased threat level response. Featuring dynamic live fire exercises, mechanical breaching techniques for challenging positions and situations, as well as, advanced techniques for Close Quarters Tactics. This course will enhance the capacity of any SWAT officer to better address elevated threats in less than desirable circumstances.

BREACHER COURSES

Breacher 1 - This 1-Day Course will enable the officer to properly utilize a Battering Ram, Sledgehammer, or Halligan Tool to defeat a locked or barricaded door. Officers will understand how to select and implement the proper tool, and defeat the door while maintaining the highest degree of officer safety through proper positioning.

Breacher 2 - This 1-Day Course will instruct the Breacher to defeat eccentric problems with the core mechanical tool systems. Scenarios that restrict movement and present unfavorable positions for the breacher and the entry team will be focused on. Alternate methods for entry team movement and breacher operation and employment of tools will be a key element.

CLOSE QUARTERS TACTICS COURSES

LVL 1 - This 3-Day Course will teach the student the fundamentals of clearing structures utilizing a system focusing on 2 and 4 officer elements, as part of a larger team. The Norse Variable Threat system establishes principles and fundamentals that enable officers to clear structures of varying configurations regardless of the operation profile.

LVL 2 - This 3-Day Course prepares the student to clear structures with increased complexity, as a small element, to include multiple elements operating simultaneously within a structure. Students will be able to produce the highest degree effectiveness, without sacrificing officer safety.

LVL 3 - This 5-Day Course instructs students on the methods required to operate at the highest operative tempo within the most austere conditions, without sacrificing effectiveness. Students will be required to complete scenarios involving high threat circumstances, including Hostage Rescue scenarios, while maintaining an increased level of officer safety.

Explosive Breacher Course – This 5-Day Course will instruct students on the elements of safely calculating, constructing, and employing explosive breach charges. Students will be able to properly plan and execute an explosive breach, to include maintaining the safety of the entry team over the entire course of action, from planning to execution.

Firearms Instructor Development – This 3-Day Course will introduce instructors to the Norse methodology, objectives, and principles of delivering tactical marksmanship instruction as applied to pistol and patrol rifle systems.

Low Light Pistol – This 1-Day Course will teach officers utilization of both Weapon- Mounted and Hand-Held light systems for operational use in conjunction with their service pistol. Operation of both light system types while engaging with a pistol, as well as utilization during non-lethal but elevated-risk situations are demonstrated and practiced.

MRDS Pistol - This 2-Day Course will teach officers the specific considerations and techniques to employ a Pistol that is equipped with an MRDS (Miniature Red Dot Sight) System. Specific techniques that will maximize effectiveness with the MRDS system will ensure accuracy and efficiency.

Patrol Leadership – This 2-Day Course will instruct the student in the processes in which decisions are made at a patrol or first-line supervisory level. Students will learn about the various roles and responsibilities of those within an agency and how to develop other officers within their assigned platoon/unit. Students will also learn how to develop a planning process for responding to patrol level calls for service. Upon completion of this course students will demonstrate the ability to identify and mitigate potential risks commonly encountered while on patrol.

Precision Rifle Course 1 – This 5-Day Course will instruct students to properly perform the duties of a LE Sniper/Observer. Students will have a detailed understanding of setting up their weapon system and compiling the most accurate data to support a precision engagement under stressful conditions. Techniques to ensure accurate ballistic data, corrections for environmental factors, and positive target identification will ensure precision capability for the student.

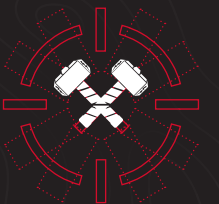

Precision Rifle Course 2 – This 5-Day Course will expand the capabilities of the Sniper/ Observer. Students will be able to calculate corrections for moving targets, and effects and corrections for material barriers. Students will be proficient in shooting from alternate positions under adverse conditions while maintaining positive target identification and precise shot placement.

Tactical Leadership – This 3-Day Course will instruct students on the elements needed to plan and execute SWAT and Special Response operations. Students will learn administrative, operational and post action procedures to maximize efficiency and effectiveness. The curriculum will instruct team leaders and commanders in optimizing their performance in their individual roles and cooperative efforts in maintaining a team that is properly organized, equipped, and trained. The course will enable students to see and understand the full scale and flow of a tactical operation. This course provides a unique benefit to all Special Operations Officers that complete it. Students will learn procedures for mission planning, mobilization, execution, and effective after-action processes. Scenarios will feature full mission profile exercises with post exercise analysis and applications of lessons learned into subsequent exercises.

Vehicle Engagements – This 1-Day Course will provide the student with an understanding of the considerations necessary in the event that an engagement occurs involving firing into or out of a vehicle. Principles of cover and concealment, along with benefits and deficiencies of the barriers created by materials of a vehicle will be understood.

Vehicle Interdiction – This 1-Day Course will instruct students in proper methods for a high- risk vehicle stop. Students will learn proper methods for approach, security posture, and extraction. Multiple Vehicle Platforms ranging from a passenger vehicle, large SUV, and commercial vehicles will be utilized for practical exercises. Students will understand the individual techniques as well as overall considerations for a team element.

Warrant Service Course – This 5-Day Course will improve upon critical skills for officers in the capacity of Narcotics, Fugitive Apprehension, Detectives, and Warrant Service Teams. The curriculum features 1-day of firearms training featuring marksmanship principles and fundamentals, weapon manipulation techniques for restrictive environments, and principles of weapons safety within team elements. 4-Hours of Vehicle Interdiction, 4-Hours of Mechanical Breaching techniques and procedures, and 3-Days of Close Quarters Tactics training. This course format is excellent for a team and individual officers to establish uniformity, and team cohesion in Tactical Operations

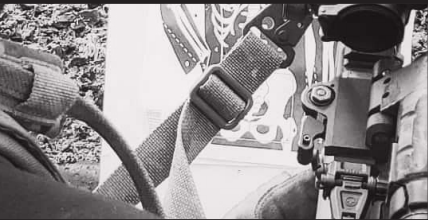

THE NORSE PORTAL

Norse clients understand the success that comes with systematized and standardized training. Training time is a precious commodity for Law Enforcement Officers and the agencies they represent. Advanced training requires more time spent in formal courses to achieve quality results and more time spent post formal course time to ensure proficiency.

Communication between students and from students to instructors in conjunction with instructional video segments of course content produce exceptional levels of proficiency and retention of course content. The training doesn't stop at the end of the course - ongoing repetition creates proficiency.

Students who become subscribing members of the Portal have continuous access to these resources. The value of training is much greater if the student is able to retain the information with a high level of proficiency. Skillsets which do not get utilized and practiced on a daily basis will consistently diminish. These skillsets are often those that are necessary in an immediate manner within a critical situation.

The Norse Training Portal has three separate and unique divisions.

- 1 Department Training Division (DTD)** – For full department access featuring standard content along with monitoring and testing features.
- 2 Patrol Operations Division (POD)** – For Patrol Officers featuring standard content and communication features.
- 3 Special Operations Division (SOD)** – For SWAT and Warrant Service Teams, Flex and Narcotics Teams featuring standard content and communication features, along with Special Discipline content (Breaching, Mobility, Precision Rifle, and Tactical Medicine).
